

ENVIRONMENTAL POLICY

Prism Electronics is committed to the protection of the environment through the use of sound environmental practices to protect our employees and the communities in which we conduct our business.

The implementation of this policy is a management objective and is the responsibility of every employee. Environmental responsibility is an ongoing process, affected by changing scientific knowledge, business needs and laws.

To achieve this Prism Electronics and its employees will:

- Comply with all applicable environmental laws and regulations.
- Encourage and promote waste minimisation through reduction, re-use and recycling of materials, energy efficiency, resource conservation and pollution prevention.
- Review and continuously improve our business practices to support environmental considerations in business decisions and planning activities.
- Work together with our suppliers, customers and appropriate authorities on environmental issues related to our business.

This policy will be supported by an effective Environmental Management System compliant with ISO 14001:2015. It is our shared responsibility to apply this policy to everything we do.

Signed:

D J ASPINALL
Managing Director
